

TRAINING

FOR THE STREET

Dynamic training demands products of the highest quality. When training must be intense and has to be safe, you can't afford less than ASP.

Training Batons in 26" (7200) and 21" (7201) lengths combined with Carriers (7203) to reduce injury potential while allowing dynamic, high level simulations.

Training Bags (7102) are designed for the rigors of defensive measures instruction.
