

WEARABLES

A new technology of personal lighting products. ASP Wearable Lights are bright, reliable and conveniently clipped. Designed to be worn, not carried or left in a car. These award winning designs will become your constant companion. A Lifetime of Light . . . where and when you need it.

Available with Intermittent (Sapphire Series) or 3-Mode (Elite Series) switches. Choose from aluminum and translucent panels, vibrant ChromaColor designs or forged brass strikings. The lifetime LED produces a high efficiency, non-deteriorating solid state beam. It provides a soft illumination with a 180° viewing radius that is visible over one mile. This is a lighting system so advanced that it is guaranteed for life. These are the lights that started the revolution in LED technology.

Exclusive Tri-Ring Clips feature a coil spring for smooth opening and automatic closing.

LED Colors are brilliant and visible for over one mile. High visibility Blue, night vision Red and true color White.

3-Mode Switches (Elite, Talon, Ice, Classic) allow for easy activation of Constant-On, Alert Strobe and International SOS.

PowerPaks in Black (2680) for the Elite, Talon and Classic and Clear (3980) for the Ice provide a replaceable source of Lithium energy.

Lifetime Crystals produce a high efficiency, non-deteriorating solid state beam.
