

ASP FACTS

PRODUCT: Swivel Cap

ADVANTAGE:

The Swivel Cap is light weight and compact. It replaces the standard cap on ASP Expandables.

The unique design of the Swivel Cap allows a Tactical Baton® to be totally concealed inside the waistband. A set of keys hangs over the belt. Grasping the keys, an officer can present and instantly expand a Tactical Baton in one fluid movement. Particularly popular for use with F16 and F21 Airweight® Batons by investigating and undercover personnel.

SPECIFICATION:

- 6061 T6 aluminum
- Black industrial anodized
- Black powder paint coated
- O-ring retention groove
- Fits all ASP Tactical Batons
- Brass swivel
- Brass Detachable® keyring

PERFORMANCE:

No other method of carry is as lightweight, compact, concealable or rapidly presented as the Swivel Cap.

SALES STRATEGY:

Demonstrate the ease of attachment and the concealment potential of the Swivel Cap. Show the speed with which a totally concealed Tactical Baton can be presented and expanded.
