

ASP FACTS

FEATURE: Extended LeverLoc® Tip

ADVANTAGE:

Low profile manual extension of the LeverLoc Baton is made possible by the Extended Tip. The three grooves of the tip allow an officer to pull the LeverLoc shafts into an extended position. The expansion is both low profile and non-threatening. The tip is field replaceable.

SPECIFICATION:

- Reduced diameter tip
- Three concentric grooves
- Nylon thread locking bar

PERFORMANCE:

The Extended Tip makes possible a low profile, non-threatening extension of LeverLoc shafts.

SALES STRATEGY:

Demonstrate how the thumb and forefinger slide from the front collar of the LeverLoc to grasp the Extended Tip. Show how the grooves of the tip are used to pull the shafts of the baton into a locked position.
