

ASP FACTS

PRODUCT: Key Return System

ADVANTAGE:

Professionals are often reluctant to place their name and address on a set of keys. They fear that lost keys will make their home vulnerable.

Through the Key Return Program, ASP maintains a directory of the individuals who register their key tag with the corporation. In this way, lost keys can be dropped into any mailbox and sent to us postage paid. We will then return the keys to the owner.

SPECIFICATION:

- Die struck solid brass or nickel silver
- Individually serial numbered
- Postage paid return

PERFORMANCE:

ASP Key Return Systems are attractive. They are individually serial numbered to provide a Corporate Registry of clients. In the event of lost keys, the client will be notified and the keys returned free of charge for life.

SALES STRATEGY:

Show the extreme detail and engraving quality of the die struck ASP Key Return Systems.
